After history they went back to Mr. Winkles class and said "Hey, me and Devon have been talking about doing a science project to help our grade and wondering if we could use the lab?" Mr. Winkle said " I never thought you guys would want to do such a thing. I always thought you guys were just some jokes that didn't care about your grades. So yes you can use the science lab for your project."

Chapter 2 by Olive Oil

They both were very shocked at the decision of Mr. Wrinkle letting them use the lab for their Science Project! No one ever uses the lab for anything. The last time somebody has ever used the lab was since.. They don't even know! It's been a very long time but people have told stories about the science lab. They say that in there, they have living creatures that eat humans. That's why every person that goes in never comes out. Are they going use the lab or will they pass and do it someplace else?
